Art Unit: 1714

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 243-246 are rejected under 35 U.S.C. 102(b) as being anticipated by Nicolson et al, 5,849,811.

Nicolson et al disclose extended wear ophthalmic lenses comprising a core copolymer and surfaces which are more hydrophilic than the core(abstract, column 43, lines 43-55). The core is disclosed as comprised of a silicon copolymer with high ion and oxygen permeability; at least 0.4×10^{-6} cm²/sec 80 barrers/mm respectively (claims 13 and 21). These lenses are further taught as capable of extended wear periods of at least 30 days (claim 12).

Therefore the reference anticipates the rejected claims.

Claims 183-242 are allowed.
